CONTENTS · COMPLETE

Everything in the kit

Seven modules, one bonus pack, thirty-four files and 112 designed pages.

This is the full table of contents, not a summary. Every file is listed with its format, its page count and what it is actually for. If a file is not on this list, it is not in the toolkit.

MODULE 00 — Start Here — Orientation, licence, and the evaluation path

Quick Start Guide	PDF / DOCX	8 pp	The whole method on eight pages: which evaluation to run first, which file to open, how the modules connect.

MODULE 01 — Scoping & Governance — Bound the evaluation before you run it

Clinical UX Evaluation Proposal	PDF / DOCX	7 pp	A priced proposal written for a clinical or regulatory buyer, with exclusions and a signature block.
Scoping & Risk Worksheet	PDF / DOCX	5 pp	User groups, care settings, hazards in scope, access, timeline and the evidence the buyer needs.
Statement of Work	PDF / DOCX	4 pp	Deliverables, acceptance, change control, IP and payment terms for a regulated engagement.

MODULE 02 — Safety & Access Scorecard — The instrument that produces evidence

Clinical UX Safety & Access Scorecard	PDF / DOCX	10 pp	Seven dimensions, fifty-six criteria, each with a written 0 anchor and 4 anchor and the evidence type required.
56-Criterion Rubric	PDF / DOCX	8 pp	All fifty-six criteria with the regulatory clause each one maps to.
Scorecard Workbook	XLSX	—	Live scoring across fourteen tabs, including the safety cap and the hazard traceability log.

MODULE 03 — Clinical Task Analysis — Understand the work before judging the screen

Task & Workflow Analysis Kit	PDF / DOCX	7 pp	Observation protocol, task inventory and the interruption model, drawn from SEIPS.
Use-Error Hazard Log	PDF / DOCX	8 pp	Captures use errors, near misses and workarounds, and traces each to a design cause.

MODULE 04 — Usability Validation — Formative and summative, documented

Formative Test Protocol	PDF / DOCX	10 pp	Moderated sessions in context, with the task set, the probe script and the severity call.

Summative Validation Protocol	PDF / DOCX	10 pp	The validation protocol: 15 participants per distinct user group, task success, use error and root cause.
Participant Screener & Consent Pack	PDF	5 pp	Screener, consent, recording release and data-handling notice.

MODULE 05

Accessibility & Health Literacy — The population, not the average user

Accessibility Audit Guide	PDF / DOCX	8 pp	WCAG 2.2 AA pass conditions on the clinical critical path, with assistive-technology test scripts.
Plain-Language & Health Literacy Review	PDF / DOCX	6 pp	Readability, terminology and numeracy review against the literacy range of the population served.

MODULE 06

Report & Traceability — Evidence a reviewer will accept

Clinical UX Report Template	PDF / DOCX	9 pp	A complete sample report: summary, method, findings, severity, hazard traceability, limitations.
Use-Error & Risk Traceability Matrix	PDF / DOCX	7 pp	Maps every hazard to the evidence, the finding and the design change that closes it.

MODULE 07

Bonus - Source Files — The working assets

SUS & NASA-TLX Scoring Workbook	XLSX	—	Pre-built scoring for the System Usability Scale and NASA Task Load Index, with benchmarks.
Severity & Priority Calculator	XLSX	—	Severity x frequency x detectability, producing a defensible priority order.
Figma Test Session Board	FIG	—	An editable board for running sessions: task, observation, quote, error, severity.
README	MD	—	How to import, duplicate and licence the source files.

TOTAL	34 files	**112 pp**	112 designed pages, excluding the workbook and source files
